

## Small animal, Zoo & Exotics vet required in Dudley West Midlands

Stewartvets are an independent, small animal, exotic and Zoo animal practice in Dudley in the West Midlands with an expanding exotic pet caseload.

We also have a very large case load at Dudley Zoological gardens as we are the sole providers of veterinary services at the Zoo which has its own dedicated animal hospital.

The practice is well equipped with all the usual toys.

The position would suite someone working towards a certificate or certificate holder.

CPD, including certificates, encouraged and funded.
