## **PROGRAMME**

Time	FRIDAY: ZOO HEALTH (Huxley Lecture Theatre)		
08:00	Registration in the Huxley Lecture Theatre Foyer		
09:00		Welcome by the BVZS President Mark Stidworthy	
	Session 1	AVIAN INFLUENZA (Chair: Mark Stidworthy)	
09:15	Ruth Cromie	WWT and Highly Pathogenic Avian Influenza: the reality of our best-laid	
		plans	
10:00	Nic Masters	HPAI as part of a zoological collection's preventive medicine programme:	
		experience at ZSL in 2016/2017	
10:15	Michelle O'Brien	Avian influenza vaccination for zoos: pros and cons	
10:30	TEA/COFFEE BREAK	Prince Albert Suite	
	Session 2	LARGE ZOO MAMMALS (Chair: Andrew Routh)	
11:15	Phillipa Dobbs	Long term management of a 32-year-old Asian elephant ( <i>Elephas maximus</i> ): decision making process and euthanasia	
11:30	Matyas Liptovszky	Myocardial fibrosis in great apes: an update from the Ape Heart Project	
11:45	Sarah Chapman	Causes of mortality in captive elephants in the United Kingdom (1995-2015)	
12:00	Edmund Flach	Investigating the possible existence of subclinical gamma herpesvirus infections in zoo Artiodactyla	
12:15	Charlotte Bentley	Detection of foot pathology by 3D radiography in elephants	
12:30	Elliott Simpson	First reported caesarian section in a lowland tapir (Tapirus terrestris)	
12:45	LUNCH	Prince Albert Suite	
	Session 3	MYCOBACTERIOSIS (Chair: Fieke Molenaar)	
14:00	John Fishwick	An update on <i>Mycobacterium bovis</i> in cattle	
14:15	Rosie Woodroffe	Tuberculosis in badgers	
14:45	Shelley Rhodes	Control of bovine tuberculosis in a farmed red deer herd in England	
15:15	Paul Burr	Interferon gamma testing in felids	
15:30	TEA/COFFEE BREAK	Prince Albert Suite	
	Session 4	SMALL ZOO MAMMALS (Chair: Peter Kettlewell)	
16:15	Hannah Rowland	Canine coronavirus: an emerging problem for bush dog ( <i>Speothos venaticus</i> ) populations	
16:30	Andrew Routh	Neoplasia in two aye-ayes ( <i>Daubentonia madagascariensis</i> ): unrelated events in two closely related specimens	
16:45	Simon Girling	Clinical signs, pathology and management of a Yersinia	
		pseudotuberculosis outbreak in a rock hyrax colony (Procavia capensis)	
17:00	Carys Redman-White	Viral antibody dynamics in a captive colony of straw-coloured fruit bats ( <i>Eidolon helvum</i> )	
17:15- 18:30	ICEBREAKER	Canapes & drinks in the Prince Albert Suite, ZSL London Zoo	
Time	FRIDAY: ZOO, WILDIFE AND EXOTIC PET NURSING (Livingstone Lecture Theatre)		
08:00		Registration in the Huxley Lecture Theatre Foyer	
09:00		Welcome by the BVZS Nurse Representative, Denise Laughlin	
	Session 5	RABBITS (Chair: Denise Laughlin)	
09:15	Jo Hinde	Holistic rabbit anaesthesia and airway management (KEYNOTE)	
10:30	TEA/COFFEE BREAK	Livingstone Lecture Theatre Foyer or Prince Albert Suite	
	Session 6	SURGICAL AND MEDICAL NURSING (Chair: Denise Laughlin)	
11:15	Erin McNally	Bilateral cataract removal via phacoemulsification with the use of endolaser and implanted custom-made lenses in a jaguar ( <i>Panthera onca</i> )	
11:33	Donna Brown	Laparoscopic surgery: nursing considerations	
12:09	Erin McNally	Voluntary blood draw training through protective contact	

12:27	Wendy Irvine	Nursing penguins with respiratory disease
12:45	LUNCH	Prince Albert Suite
	Session 7	COLLECTION AND INPATIENT CARE (Chair: Denise Laughlin)
14:00	Sarah Chapman	Preventative health care in zoo animals
14:35	David Stokes	Nursing care of post hibernation anorexia in tortoises
14:53	David Stokes	Nursing care of reptiles with dystocia
15:11	David Stokes	Nursing case study: Argentinian horned frog (Ceratophrys ornata) with
		an impaction
15:30	TEA/COFFEE BREAK	Livingstone Lecture Theatre Foyer or Prince Albert Suite
	Session 8	ANAESTHESIA AND CRITICAL CARE (Chair: Denise Laughlin)
16:15	Heather Macintosh	Water of life: why, when and how to administer fluids to the exotic
		patient (birds, reptiles)
16:33	Emily Barnes	To starve or not to starve? Anaesthetic blood glucose levels in
		Livingstone's fruit bats (Pteropus livingstonii)
16:51	Abigail Edis	An ingluviotomy in a green cheeked conure (Pyrrhura molinae)
17:15-	ICEBREAKER	Canapes & drinks in the Prince Albert Suite, ZSL London Zoo
18:30		

Time	SATURDAY: EXOTIC P	ET AND ZOO HEALTH (Huxley Lecture Theatre)
08:15		Registration in the Huxley Lecture Theatre Foyer
	Session 9	ZOO REPTILES AND AMPHIBIANS
		(Chair: Lindsay Thomas)
09:15	Joanna Reynard	Vacuum-assisted closure of a shell abscess wound in an Aldabran tortoise
		(Aldabrachelys gigantea)
09:30	Matt Steele	Pavlov's tortoises - can saliva be used to monitor reproductive cycles in
		Galapagos tortoises (Chelonoidis nigra)?
09:45	Michelle O'Brien	Four cases of amphibian neoplasia in two zoological collections
10:00	Martin Whitehead	Serum vitamin D₃ in captive zoo reptiles
10:15	Christa van Wessem	Malignant round cell tumour in an Anderson's salamander (Ambystoma andersoni)
10:30	TEA/COFFEE BREAK	Prince Albert Suite
	Session 10	ZOO BIRDS (Chair: Sarah Jayne Edwards)
11:00	Julian Chantrey	An outbreak of <i>Paratanaisia</i> infection in endangered captive birds
11:15	Romain Pizzi	Corneal thermography as a screening diagnostic test for aspergillosis in
		captive Gentoo penguins (Pygoscelis papua)
11:30	Michelle Barrows	Neuroaxonal dystrophy in five young pied imperial pigeons (Ducula
		bicolor)
11:45	Adam Naylor	Hypovitaminosis A induced salt gland adenitis in Northern rockhopper
		penguins (Eudyptes moseleyi)
12:00	Richard Saunders	Use of mavacoxib, a long acting NSAID, in three species of birds in a
		zoological collection
12:15	Francis Scullion	A new method of estimating nutritional needs in growing long-legged
		birds
12:30	BVZS AGM	Huxley Lecture Theatre
13:15	LUNCH	Prince Albert Suite
	Session 11	EXOTIC PET WELFARE (Chair: Iain Cope)
14:00	Nicola White	Why are so many reptiles neglected? An animal welfare charity's
		perspective on pet reptile health and welfare
14:15	Tariq Abou-Zahr	Policing welfare at UK reptile shows – findings from the last three events
14:30	Katherine McIndoe	Managing handling related stress in the domestic rabbit
14:45	Martin Whitehead	Factors affecting the likelihood that pet species' welfare needs will be
		met

15:00	Fiona Froehlich	Retrospective study of exotic patients presented to emergency services	
45.45	TEA /005555 BB544	across the UK	
15:15	TEA/COFFEE BREAK	Prince Albert Suite	
46.00	Session 12	EXOTIC PET MEDICINE (Chair: Sarah Pellett)	
16:00	Taiana Costa	Diagnostics and treatment of frostbite in birds	
16:15	Kan Tang	Efficacy of a topical formulation containing emodepside and praziquantel (Profender®, Bayer) against nematodes in captive tortoises	
16:30	Matthew Fiddes	Clinical use of cyclophosphamide as a chemotherapy agent in pet reptile neoplasia: a case series	
16:45	Tariq Abou-Zahr	Superficial chronic ulcerative dermatitis (SCUD) in pet psittacines: a review of eleven cases from a UK practice	
17:00-	Jo Hedley	Guinea pig hyperthyroidism: the challenges of diagnosis and treatment	
17:15	,		
18:00	DRINKS RECEPTION	Denis Compton Foyer, Danubius Hotel, Regent's Park, 18 Lodge Road, St Johns Wood, London, NW8 7JT	
19:00	THREE COURSE	Denis Compton Suite, Danubius Hotel	
	BUFFET DINNER	,	
21:00	SILENT DISCO / BAR	Denis Compton Suite, Danubius Hotel	
Time	SATURDAY: WILDLIFE	HEALTH (Livingstone Lecture Theatre)	
08:15		Registration in the Huxley Lecture Theatre Foyer	
	Session 13	WILDLIFE HEALTH SURVEILLANCE (Chair: Katie Beckmann)	
09:00	Paul Duff,	Wildlife disease surveillance in GB: an overview of the GBWDSP and	
	J Paul Holmes	WILDCOMS partnerships and some component projects (KEYNOTES)	
09:45	Caroline Robinson	Wildlife health surveillance in Scotland	
10:00	Anna Meredith	Scottish wildcat health surveillance	
10:15	Allan Muir	Sarcocystosis in free-living waterfowl: an emerging UK wildlife disease?	
10:30	TEA/COFFEE BREAK	Livingstone Lecture Theatre Foyer or Prince Albert Suite	
	Session 14	BREXIT AND EUROPE (Chair: Liz Mullineaux)	
11:00	Alick Simmons	Brexit, wildlife and the veterinary profession: a personal perspective (KEYNOTE)	
11:45	Lisa Yon	Recent changes in six key pathogens affecting European wildlife	
		HEDGEHOG HEALTH (Chair: Liz Mullineaux)	
12:00	Becki Lawson	Salmonella Enteritidis ST183 in hedgehogs and humans: endemic	
		infection and emerging trends	
12:15	Helle Hydeskov	Detection and characterization of multiple herpesviruses in free-living	
		1 1	
12:30		Western European hedgehogs ( <i>Erinaceus europaeus</i> )	
13:15	BVZS AGM	·	
15.15	BVZS AGM LUNCH	Western European hedgehogs (Erinaceus europaeus)	
13.13		Western European hedgehogs ( <i>Erinaceus europaeus</i> ) Huxley lecture theatre	
14:00	LUNCH	Western European hedgehogs ( <i>Erinaceus europaeus</i> )  Huxley lecture theatre  Prince Albert Suite	
	LUNCH Session 15	Western European hedgehogs ( <i>Erinaceus europaeus</i> ) Huxley lecture theatre Prince Albert Suite  OPEN (Chair: Stuart Patterson)	
14:00	LUNCH Session 15 Vic Simpson	Western European hedgehogs ( <i>Erinaceus europaeus</i> )  Huxley lecture theatre  Prince Albert Suite  OPEN (Chair: Stuart Patterson)  Protostrongylid pneumonia in roe deer ( <i>Capreolus capreolus</i> )  Project Godwit: securing the future of black-tailed godwits ( <i>Limosa</i> )	
14:00 14:15	LUNCH Session 15 Vic Simpson Katie Beckmann	Western European hedgehogs ( <i>Erinaceus europaeus</i> ) Huxley lecture theatre Prince Albert Suite  OPEN (Chair: Stuart Patterson) Protostrongylid pneumonia in roe deer ( <i>Capreolus capreolus</i> ) Project Godwit: securing the future of black-tailed godwits ( <i>Limosa limosa limosa</i> ) through translocation (and some health management) The only vet in the Maldives: setting up a marine turtle rescue centre in	
14:00 14:15 14:30	LUNCH Session 15 Vic Simpson Katie Beckmann Claire Petros	Western European hedgehogs ( <i>Erinaceus europaeus</i> )  Huxley lecture theatre  Prince Albert Suite  OPEN (Chair: Stuart Patterson)  Protostrongylid pneumonia in roe deer ( <i>Capreolus capreolus</i> )  Project Godwit: securing the future of black-tailed godwits ( <i>Limosa limosa limosa</i> ) through translocation (and some health management)  The only vet in the Maldives: setting up a marine turtle rescue centre in an island nation	
14:00 14:15 14:30 14:45	LUNCH Session 15 Vic Simpson Katie Beckmann Claire Petros Matt Brash	Western European hedgehogs ( <i>Erinaceus europaeus</i> )  Huxley lecture theatre  Prince Albert Suite  OPEN (Chair: Stuart Patterson)  Protostrongylid pneumonia in roe deer ( <i>Capreolus capreolus</i> )  Project Godwit: securing the future of black-tailed godwits ( <i>Limosa limosa limosa</i> ) through translocation (and some health management)  The only vet in the Maldives: setting up a marine turtle rescue centre in an island nation  Badger reproductive ultrasonography

14:00 14:15 14:30 14:45 15:00	LUNCH Session 15 Vic Simpson Katie Beckmann Claire Petros Matt Brash Tom Dutton	Western European hedgehogs ( <i>Erinaceus europaeus</i> )  Huxley lecture theatre  Prince Albert Suite  OPEN (Chair: Stuart Patterson)  Protostrongylid pneumonia in roe deer ( <i>Capreolus capreolus</i> )  Project Godwit: securing the future of black-tailed godwits ( <i>Limosa limosa limosa</i> ) through translocation (and some health management)  The only vet in the Maldives: setting up a marine turtle rescue centre in an island nation  Badger reproductive ultrasonography  Utilisation of falconry techniques to improve flight performance and eventual release success of wildlife raptor casualties	

16:15	Bev Panto	Wildlife euthanasia: the good, the bad and the ugly
16:30	Liz Mullineaux	BVZS good practice guidelines for wildlife centres: what's next
16:40-	Discussion	1. Wildlife medicine: working with the BVZS Guidelines, strengthening
17:15	Panel: Paul Duff,	ties
	Becki Lawson, Alick	2. Wildlife medicine & surveillance: how to achieve in practice
	Simmons, Liz	
	Mullineaux, Romain	
	Pizzi	
18:00	DRINKS RECEPTION	Denis Compton Foyer, Danubius Hotel, Regent's Park, 18 Lodge Road, St
	AND WILDLIFE	Johns Wood, London, NW8 7JT
	HEALTH SPEED	
	DATING	
19:00	THREE COURSE	Denis Compton Suite, Danubius Hotel
	BUFFET DINNER	
21:00	SILENT DISCO / BAR	Denis Compton Suite, Danubius Hotel

Time	SUNDAY: EXOTIC PET HEALTH (Huxley Lecture Theatre)	
	Session 17	DIAGNOSTIC TECHNIQUES IN EXOTIC ANIMALS (Chair: Livia Benato)
09:15	Estella Boehmer	Diagnosis of malocclusions in rabbits, chinchillas and guinea pigs with the
		aid of innovative dental radiographic techniques (KEYNOTE)
10:15	Fiona Froehlich	The use of computed tomography in diagnosing respiratory disease in
-		several avian species
10:30	TEA/COFFEE BREAK	Prince Albert Suite
	Session 18	SURGERY IN EXOTIC PETS (Chair: Joanna Hedley)
11:15	Siuna Reid	Placement of a permanent PEG in a Hermann's tortoise (Testudo
-		hermanni)
11:30	Adrianna Skarbek	Management of femoral fracture in rabbits with external skeletal fixator-
		intramedullary pin tie-in
11:45	Tariq Abou-Zahr	Post-ovulatory dystocia in captive reptiles: a review of 46 cases from a
		UK practice
12:00	Livia Benato	Operative times in rabbits undergoing ovariohysterectomy and
		orchidectomy within a teaching environment
12:15	Jenna Richardson	Advanced treatment options for thymoma in domestic rabbits
12:30	LUNCH	Prince Albert Suite
	Session 19	PARALLEL STREAM: STUDENT CAREERS SESSION
		(Livingstone Lecture Theatre) (Chair: Sarah Pellett)
11:15	Helle Hydeskov	European College of Zoological Medicine residencies in wildlife
		population health

11:30	Stuart Patterson	Punching above your weight: small numbers of interventions, used
		Punching above your weight: small numbers of interventions, used strategically for disease control
11:30	Stuart Patterson  Lindsay Thomas	Punching above your weight: small numbers of interventions, used strategically for disease control  Making the most of student research opportunities: tick borne diseases
11:45	Lindsay Thomas	Punching above your weight: small numbers of interventions, used strategically for disease control  Making the most of student research opportunities: tick borne diseases in Far East Russia and their significance in Amur Leopard conservation
		Punching above your weight: small numbers of interventions, used strategically for disease control  Making the most of student research opportunities: tick borne diseases in Far East Russia and their significance in Amur Leopard conservation  Development of collaborative conservation research projects: examples
11:45	Lindsay Thomas Stephanie Jayson	Punching above your weight: small numbers of interventions, used strategically for disease control  Making the most of student research opportunities: tick borne diseases in Far East Russia and their significance in Amur Leopard conservation  Development of collaborative conservation research projects: examples from the Mountain Chicken Recovery Programme
11:45	Lindsay Thomas	Punching above your weight: small numbers of interventions, used strategically for disease control  Making the most of student research opportunities: tick borne diseases in Far East Russia and their significance in Amur Leopard conservation  Development of collaborative conservation research projects: examples from the Mountain Chicken Recovery Programme  Epidemiology, disease manifestation and transmission of viral
11:45 12:00 12:15	Lindsay Thomas Stephanie Jayson Colin Brown	Punching above your weight: small numbers of interventions, used strategically for disease control  Making the most of student research opportunities: tick borne diseases in Far East Russia and their significance in Amur Leopard conservation  Development of collaborative conservation research projects: examples from the Mountain Chicken Recovery Programme  Epidemiology, disease manifestation and transmission of viral haemorrhagic fever
11:45	Lindsay Thomas  Stephanie Jayson  Colin Brown  LUNCH	Punching above your weight: small numbers of interventions, used strategically for disease control  Making the most of student research opportunities: tick borne diseases in Far East Russia and their significance in Amur Leopard conservation  Development of collaborative conservation research projects: examples from the Mountain Chicken Recovery Programme  Epidemiology, disease manifestation and transmission of viral haemorrhagic fever  Prince Albert Suite
11:45 12:00 12:15 12:30	Lindsay Thomas  Stephanie Jayson  Colin Brown  LUNCH  Session 20	Punching above your weight: small numbers of interventions, used strategically for disease control  Making the most of student research opportunities: tick borne diseases in Far East Russia and their significance in Amur Leopard conservation  Development of collaborative conservation research projects: examples from the Mountain Chicken Recovery Programme  Epidemiology, disease manifestation and transmission of viral haemorrhagic fever  Prince Albert Suite  OPEN (Chair: Stephanie Jayson)
11:45 12:00 12:15 12:30 14:00	Lindsay Thomas  Stephanie Jayson  Colin Brown  LUNCH  Session 20  Bruce Maclean	Punching above your weight: small numbers of interventions, used strategically for disease control  Making the most of student research opportunities: tick borne diseases in Far East Russia and their significance in Amur Leopard conservation  Development of collaborative conservation research projects: examples from the Mountain Chicken Recovery Programme  Epidemiology, disease manifestation and transmission of viral haemorrhagic fever  Prince Albert Suite  OPEN (Chair: Stephanie Jayson)  A veterinary approach to caudates
11:45 12:00 12:15 12:30 14:00 14:15	Lindsay Thomas  Stephanie Jayson  Colin Brown  LUNCH  Session 20  Bruce Maclean  Iain Cope	Punching above your weight: small numbers of interventions, used strategically for disease control  Making the most of student research opportunities: tick borne diseases in Far East Russia and their significance in Amur Leopard conservation  Development of collaborative conservation research projects: examples from the Mountain Chicken Recovery Programme  Epidemiology, disease manifestation and transmission of viral haemorrhagic fever  Prince Albert Suite  OPEN (Chair: Stephanie Jayson)  A veterinary approach to caudates  Removal of the oral sac in a Great bustard (Otis tarda)
11:45 12:00 12:15 12:30 14:00	Lindsay Thomas  Stephanie Jayson  Colin Brown  LUNCH  Session 20  Bruce Maclean	Punching above your weight: small numbers of interventions, used strategically for disease control  Making the most of student research opportunities: tick borne diseases in Far East Russia and their significance in Amur Leopard conservation  Development of collaborative conservation research projects: examples from the Mountain Chicken Recovery Programme  Epidemiology, disease manifestation and transmission of viral haemorrhagic fever  Prince Albert Suite  OPEN (Chair: Stephanie Jayson)  A veterinary approach to caudates

Chilean rose tarantula	(Grammastola rosea)
Cilieali iose taranitura	taraminasiona rosear

15:00	Martin Whitehead	Reptile pets at the vets: the most common species presenting, presenting
		signs and diagnoses made
15:15-	PRIZE GIVING AND FA	AREWELL

15:30

POSTERS (Prince Albert Suite)		
Alison Lee	Multiple myeloma in an Amur tiger (Panthera tigris altaica)	
Andrew Bowkett	Tracking amphibian pathogens using lateral-flow technology	
Christa van Wessem	Discospondylitis in a three-month-old Baringo giraffe ( <i>Giraffa Camelopardalis rothschildi</i> )	
Jenny Jaffe	Disease risk analysis for conservation translocations	
Lisa Yon	Frozen Ark – Enhancing and Linking the UK's Animal Frozen Collections	
Steff Gardner	The use of an external fixator to repair a fractured tibia in a Golden Eagle	
Yenny Saraswati	Post-release health monitoring in the Sumatran orangutan reintroduction and release station. Jantho-aceh, Indonesia
