Webinar Plus: Backyard poultry problems and solutions

Monday 4th to Sunday 31st May

With a recent upsurge in keeping backyard poultry this course has been designed to help equip you with the skills needed when they arrive at your practice.

Join Victoria Roberts, BVSc MRVCS Backyard Poultry Vet on this 4 week online course which includes a 2 hour webinar each week plus an online discussion forum.

Key areas include:

Understanding reasons for and resolving welfare pitfalls

Welfare, husbandry and health

Normal attributes and relevant anatomy of poultry species

Diagnostics

Common diseases, treatment, prophylaxis and vaccines

Relevant medicines legislation including notifiable diseases

Emergency and critical care, euthanasia

Anaesthesia and analgesia

Surgery.
